

REMOTE REVIEWER

Simplify workflow and evidence gathering on assessed tasks, activities and observations through video, using Remote Reviewers.

Create Task

Task created by organization against a checklist and Learning Record Store

Assign Task

Task is assigned to the user that needs to complete the task

Upload Task Video

User records the task as a video and uploads against the unique URL received

Assign Reviewer

Task is assigned to a remote reviewer to assess and review. All data is stored in the External Learning Record Store

Complete Review

Once completed, user receives a email with a code to review the feedback
